

Con Corazón Outreach Report

04th March 2022 – Marampaqui

On this date, the director of Con Corazón, Saulo Gamarra, traveled to Lima to carry out regular maintenance of the obstetric ultrasound and other purchases for the institution. This time Juan Carlos was in charge of picking up each member and took the whole team to Marampaqui. For that, we coordinated with the local radio to announce our presence. The people in the Medical Center were ready to receive patients as well.

Our new sign, designed by Danièle, is now in place.

Activities

As always, people wait for our arrival. The need for health care is great.

- General Medicine, 30 patients were seen. A bit more than we regularly see.
- Dentist, 13 patients kept the dentist busy.
- Laboratory, 14 lab exams were performed by our biologist Wendy.
- Pharmacy, besides the regular work delivering medicines, Jhoni is helping translating when needed.
- Nurse, in this opportunity, Sayda has done 14 intra muscular injections.

Photo gallery

In the rainy season, the mountains turn green and the alpacas come out to eat the fresh grass near the houses. The shepherd does not need to take them to more distant places.

Start of the day with many patients and at the end of the day, the nurse Sayda calling the last patients.
