

## Con Corazón Outreach Report

15<sup>th</sup> March 2022 – Marampaqui

Neither the rain nor the intense cold stops the work that Con Corazon has been doing. On this occasion, it rained unstoppably throughout the day. Despite the extreme weather, patients manage to walk for a long time to go and be seen by the doctor in our medical center. It is admirable to see adult women and some with babies, manage to cross the mountains and small rivers, all soaked with water, to have a turn.

### Activities

**As always, people wait for our arrival. The need for health care is great.**

- General Medicine, 25 patients were seen.
- Dentist, 13 patients for fixing teeth cavities and extractions.
- Laboratory, 9 lab exams were performed by our biologist Wendy.
- Pharmacy, very busy area.
- Nurse, in this opportunity, Sayda has done 10 intramuscular injections.

## Photo gallery

Installing more posters to remind patients about the quality of food to avoid dental caries. This helps us in our prevention and health promotion program.

Juvenal Luna, is the president of Pacchanta, a village nearby. Many of our patients come from there. He came to talk with the director Saulo Gamarra, so that we can have another medical center in his community. We are pleased with the interest that the local authorities have in our project.

Sayda and Jhoni prepare the intramuscular injections prescribed by doctor Gustavo Gutierrez.
