

## Con Corazón Outreach Report

10<sup>th</sup> May 2022 – Marampaqui

The people of Marampaqui are very excited to learn that Con Corazón is having a tremendous impact on their lives. While the Medical Center is running its regular activities, the denture project has caught the interest of the whole town. Community participation, one of the key activities we have carried out, is showing positive results. People know that our presence in Marampaqui is to improve the quality of life.

We have also delivered teaching material to our teacher Nelly Quispe. She is teaching the children of Marampaqui in close collaboration with the school. She helps the student with their homework and other challenges they may have.

### Activities

- General Medicine, 24 patients were seen. A bit more than we regularly see.
- Dentist, 13 patients kept the dentist busy.
- Laboratory, 08 lab exams were performed by our biologist Wendy.
- Pharmacy, regular work delivering medicines
- Nurse, many prescriptions from the doctor were explained thoroughly.
