

Con Corazón Outreach Report

18th May 2022 – Marampaqui

On this occasion, Juan Carlos drove the car, taking the entire Con Corazón team to Marampaqui. Before arriving at our medical center, we have breakfast in the town of Tinke. It is traditional to sell breakfast in small carts in each town. This consists of a glass of hot quinoa and bread with avocado and/or cheese. The team gathers around the cart to order their respective breakfast. Once finished, we continue the trip to Marampaqui.

Activities

We could see several patients.

- General Medicine, 26 patients were seen. A bit more than we regularly seen.
- Dentist, 13 patients most of the treatments were tooth extractions.
- Laboratory, 08 lab exams were performed by our biologist Wendy.
- Pharmacy, medicines were delivered regularly.
- Nurse, as always, she was in triage and delivering injections.

Photo gallery

Since we introduce microcredits for trout breeding, our neighbors started breeding their own trout. They realized that there are many opportunities to sell them in the Tinke market on the weekends.

Johni is signing the receipts that prove receipt of payment for her service with Con Corazón. Indira, our lead dental assistant, takes care of paying her.
