

## Con Corazón Outreach Report

07<sup>th</sup> June 2022 – Marampaqui

We have had a big and a special day. We delivered dentures for the people in Marampaqui and also our regular outreach including a banquet. Another big news is that we have brought and introduce the first Smokeless Metal Stove (SMS).

We finally finished with our project: Capacity building and dentures for the people of Marampaqui. This consists of training the dentists of Cusco so that they can elaborate dentures. We had to hire two dentists specialized in dental prostheses and be able to give lectures and hands on activities. From patient's selection through installation and follow up that took us more than a month to deliver the dentures. The beneficiary patients are from Marampaqui. In conclusion, it was a project of academic and social projection.

On this day, we finished the project with the second and last follow up of their prostheses and everyone is satisfied.

### Activities

**As always, people wait for our arrival. The need for health care is great.**

- General Medicine, 27 patients were seen.
- Dentist, 23 patients we seen. In this opportunity the participants dentists from the dentures project were able to see the patients. Besides the prosthesis beneficiaries, people in pain showed up and we did dental extractions.
- Laboratory, 09 lab exams were performed by our biologist Wendy.
- Pharmacy, busy as always.
- Nurse Sayda was very busy translating and delivering injections.
