

Con Corazón Outreach Report

28th December 2022 – Marampaqui

We have finished the year amazingly! The whole Con Corazón team has witnessed our continuing growing and improvements. There are many highlights going on but sharing some of them. We have received the visit of Dr. Tatiana Repetto-Bauchhage who visited on behalf of a company from Liechtenstein called Ivoclar. She could see the Con Corazón team in action! Being able to observe our strengths, enthusiasm and love for others. She also noticed our different challenges that we consider just unfinished business. We have had a great time, sharing experiences together.

Another important highlight is that teacher Nelly Quispe and the children have received the books they asked. Few weeks before, we have had a meeting with the school principal and Nelly, where they shared the necessity of having more books as children have read it all the ones at school. Immediately we felt that it was a great idea and asked for financial support. Finally, we managed to deliver the books to all of them! We could tell that this idea made them very happy.

Activities

- General Medicine, 20 patients were seen.
- Dentist, 08 patients were seen by our dentist
- Laboratory, 07 lab exams were performed.
