

Con Corazón Outreach Report

15th February 2023 – Marampaqui

The people of Marampaqui were very excited to see us again after a long period of time. Protests in Peru include blocking roads with massive rocks and logs that disrupted normal traffic. That is the reason we could not go there for our regular outreach. Now the situation seems to be better, although with some minors strikes here and there.

One thing that stood out during this visit was that the roof of the greenhouse was destroyed and blown away by the wind and inclement weather. We already have a new plastic roof that we hope to install in the next few days. This will be done with the participation of the whole community in the area. They are the ones who benefit with the vegetables they plant.

Activities

- General Medicine, 25 patients were seen.
- Dentist, 13 patients were seen by our dentist
- Laboratory, 09 lab exams were performed.
