

## Con Corazón Outreach Report

26<sup>th</sup> March 2024 – Marampaqui

Our Con Corazón team including Dr. Janine Vega and Dr. Carlos Rios. The both of them had overnighted in our Medical Center in Marampaqui. We are lucky to have 2 bedrooms, 3 beds and heaters! that makes our stay even more comfortable. In this outreach we got to see many patients as we took advantage of the additional staff.

We all love working together, referring patients to each other, collaborating with challenging endeavors, carefully explaining the doctor's instructions to our patients, listening to their stories, teaching them about the importance of health and many other activities. Our guest doctors noticed this dynamic and encouraged themselves to join us in the future. That really make us feel proud of the way we do things here.

### Activities

Medicine, we have seen 25 patients.

Dentist, 35 patients

Laboratory, 09 lab tests were done.

Health promotion for all our patients.

## Photo Gallery

Our guest dentist occupying the laboratory and pediatric rooms.

Using our portable dental machine in Marampaqui.
