

Con Corazón Outreach Report

11th June 2025 – Marampaqui

Our medical center, a place that has given countless smiles and renewed hope to those in need, is now in need of some care itself. Over the years, the walls have witnessed thousands of stories. Stories of healing, compassion, and community. If these walls could speak, they would tell tales filled with gratitude, perseverance, and human kindness.

To honor the role this facility has played in so many lives, we have decided to give it a fresh look through a complete painting of the premises. Thanks to generous contributions, we have already purchased the necessary paint and materials. Rather than hiring external painters, we see this as an opportunity to involve our beneficiaries directly in the process.

This initiative will not only improve the physical appearance of the center but also strengthen the sense of ownership and belonging among those we serve. By joining hands to restore the beauty of the building, the community will create yet another layer of meaningful memories within its walls.

Once completed, the fresh coat of paint will stand as a symbol — a visible reminder that care goes both ways: from the center to the people, and from the people back to the center.

Activities

Medicine, we have seen 25 patients.

Dentist, 12 patients

Laboratory, 10 lab tests were done.

Health promotion for all our patients.
