

Nutrition Project report

March 2024 – Guadalupe school

Classes began on March 11, 2024 and also the coordination meetings between the school authorities and Con Corazón. These meetings allow us to do more efficient and effective work for the benefit of children. Nutrition health promotion talks also allow children to better adhere to the nutrition program. We are focused on increasing the consumption of fruits and vegetables, as well as proteins. There is a good response from all the students.

Photo Gallery

We got a small refrigerator to keep the products fresh. Children enjoy this benefit.

con corazón
perú - suiza

A very traditional Peruvian food and favorite of many, Aji de Gallina.
