

## Nutrition Project Report

May 2024 – Guadalupe School

10:30 is the time when students eagerly wait to eat in the school's large dining room. The forks, spoons and knives are waiting for them so they are ready to eat what they have cooked for them. One of the teachers says "I like to see the children's smiles, especially when they sit at the tables in the dining room."

We never calculated the emotional effect that could be caused on children through our nutrition project. The support we receive from the director and all the teachers at the school is very important for success. Without them we would not be able to achieve the objectives that we as a team have set for this year.

The girls enjoying the peaches we bought for everyone.

Today it was hamburger with salad.
