

Nutrition Project Report

June 2024 – Guadalupe School

June 24 is Cusco Day. Many activities take place throughout the province, mainly in the city. Every day of the month of June, there is a different activity in the city's main square. What there is most are the presentations of typical dances of the region and different institutions organize their choreography to parade in honor of Cusco.

For this reason, at Colegio Guadalupe, teachers encourage their students to come with traditional ponchos and chullos from our region. Plus, it's winter here and these ponchos also keep them very warm.

The children continue to enjoy their rich, varied, balanced and nutritious food dishes. After making their presentation and parade in the main square, a delicious pasta accompanied by vegetables and fruits awaited them.
